PROFESSIONAL EXPERIENCE

IT Web Developer — Aug 2021 – Jul 2024
Home Credit Philippines · Taguig, Metro Manila

- Developed and maintained the **Home Credit Marketplace (MPL)**, a business-critical platform, using **Laravel** and **Vue.js (Vue 2)**.
- Built new features and enhancements in response to evolving business requirements.
- Integrated and maintained third-party platforms, including **Magnolia CMS** and **Arcadier**.
- Managed **production deployment, monitoring, and configuration** of in-house web applications.
- Performed **unit and system integration testing** to ensure application stability.
- Upheld code quality through **peer code reviews** and adherence to development standards.
- Diagnosed and resolved complex bugs across multiple stages of the development lifecycle.
- Conducted vulnerability scanning with **Qualys** and monitored systems via **Splunk**.
- Collaborated cross-functionally on a parallel project built with **Strapi CMS**, **Node.js REST APIs**, and **Vue 3**.

Java Web Developer — Aug 2018 – Aug 2021
Blue Sky Trading Co., Inc. · Binondo, Manila

- Maintained and enhanced a **Human Resource Information System** with integrated payroll using **Struts 2**.
- Developed custom reports to client requirements using **Jasper iReports**.
- Built backend logic in **Java** and frontend components with **JSP**.
- Supported government bidding for HR management system solutions.

PROFESSIONAL EXPERIENCE (CONTINUED)

Web Developer
May 2018 – Aug 2018

ES Print Media Inc. · Makati, Metro Manila

- Developed company websites and internal web applications, including **WordPress** systems and a file support web app.
- Managed domain, hosting, and deployment, including email configuration (MX records for G Suite).
- Implemented **SEO** improvements to enhance website visibility and performance.
- Translated designers' concepts into functional websites; built 2+ WordPress sites in-house.

Web Developer & Design Intern / Facebook Manager
Jun 2017 – Sep 2017

Maxweb Inc. · Mandaluyong, Metro Manila

- Built and customized **WordPress** and **WooCommerce** sites for eCommerce clients; developed 4+ WordPress websites.
- Converted design assets into responsive frontend code using **HTML, CSS, and JavaScript**.
- Managed multiple client Facebook pages, including content posting and daily advertisements.
